BSA POLYCONTAINER PVT. LTD.

Bulk Packaging Solutions

BULK PACKAGING SOLUTIONS

ABOUT US

Established in 2002, BSA Polycontainer Pvt. Ltd. is a leading manufacturer of HM HDPE Barrels in the medium and large capacity Narrow Mouth and Open Top barrels. We specialize in Industrial Bulk Packaging Solutions in the capacity of 200ltrs -250 ltrs. We are proud to add 1000 ltrs capacity Intermediate Bulk Containers to this list.

We offer a range of quality products to clients across a wide spectrum of industry verticals. Committed to customer satisfaction, all our products meet and exceed domestic and international industry standards.

At BSA, we strive to provide exceptional customer satisfaction through manufacturing best quality products, efficient services, flexible scheduling and innovative solutions resulting in value to the customer and the company. Two state of the art manufacturing units located at Silvassa and Dahej are prominent geographically and help us to cater to our constantly expanding network.

Our production and quality departments are a perfect mix of experience and dynamism and they are well equipped with qualified and dedicated people to adhere quality products and maintain standards as per IS:6312. We strive to lead by innovation committed to offering complete customer satisfaction, ensuring that every product that leaves our premises bears the seal of quality, strength and longevity.

OUR INFRASTRUCTURE

The manufacturing capacity of more than 20,000 MTPA is spread over 200,000 sq. ft. across the two ISO 9001:2015 certified manufacturing Units at Silvassa and Dahej.

Silvassa and Dahej are well connected with all major industrial regions thus benefit of low logistic expenditure. In time production and strategic capacity reserves within the BSA network gives maximum supply security and flexibility within tight schedules.

Quality is one of the core policies of BSA. Our superior quality products and delivery have always played a significant role in our successful journey so far. We believe in superior quality in the very first delivery and continue it throughout.

We ensure the steady supply of the products and maintain our strategic purchasing policy for both Units.

INTERMEDIATE BULK CONTAINER - IBC

We are pleased to introduce our latest product for 1000 ltr capacity – the IBC. Our special design complies with international standards and provides for bulk packaging solution for varied industries and applications. To ensure globally consistent quality compatibility; we base our production system on maximum in-house manufacturing and consistent standardization.

IBC is an efficient space utilization and ideal weight combined with maximum safety and user-friendly bulk packaging container. These benefits of the versatile BSA IBC product will make it the most frequently used product in industry where bulk packaging and storage is involved.

KEY FEATURES

- Optimum utilization of existing transport space because of cube-shaped.
- Speedy filling and discharge process using conventional equipments.
- Also ideal for use with automatic filling and transport systems.
- Large label plates for fast, easy labelling.
- No additional material required for other packaging.
- Perfect stack ability and ideal suitability for high-bay storage systems.
- Simple discharge process and very good evacuation of residues.
- Worldwide collection by our recollection partner.

TECHNICAL SPECIFICATIONS

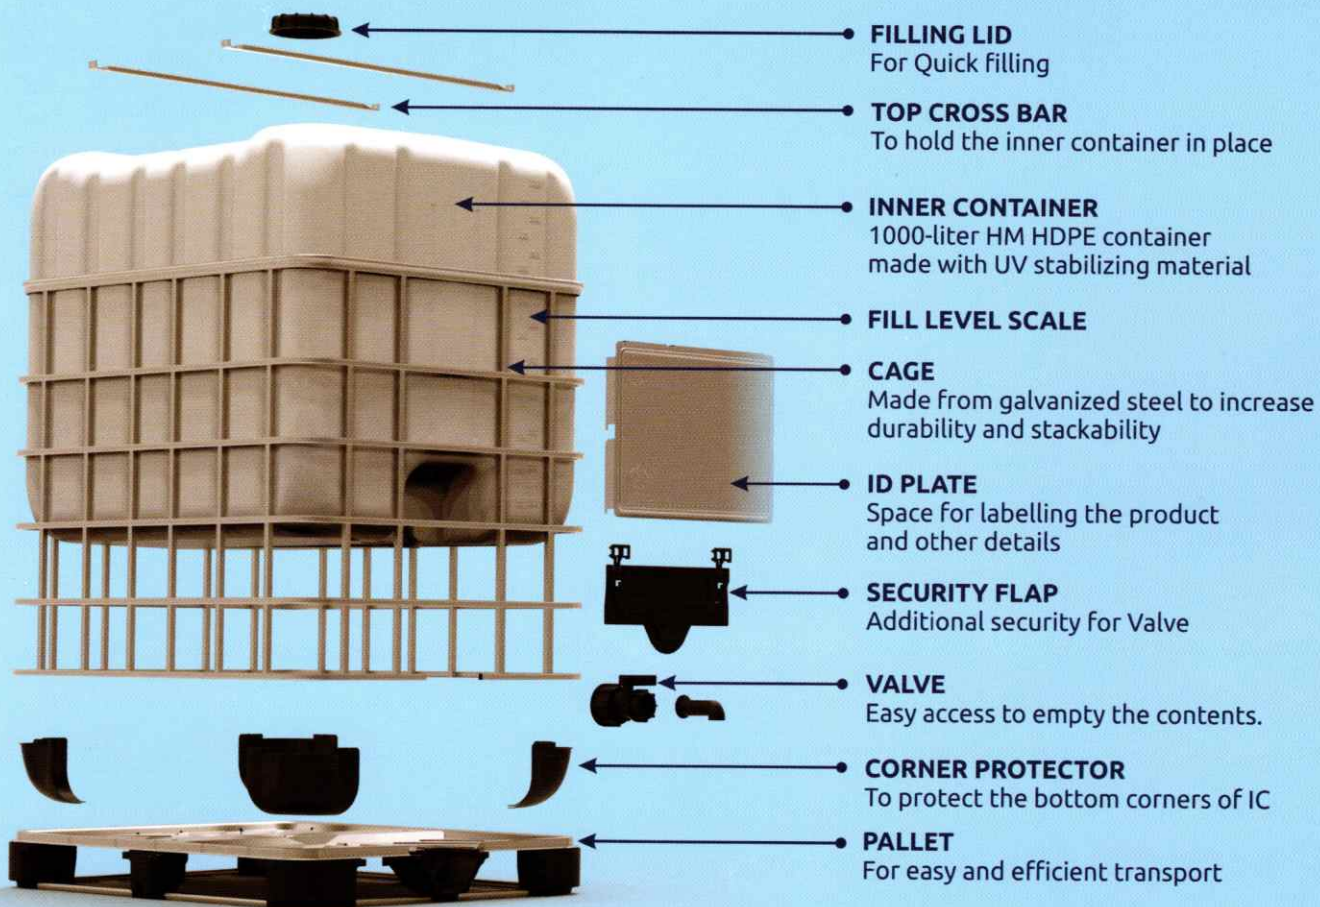

DESCRIPTION		COMPOSITE PALLET IBC	WOODEN PALLET IBC
Dimension (L x W x H) (mm)		1200 x 1000 x 1155	1200 x 1000 x 1155
Weight		58 KG	60 KG
Inner Container UV Stabilized HM-HDPE	Standard	Transparent White	Transparent White
	Optional	Black	Black
Useful Volume (Ltr)	Standard	1000 Ltr	1000 Ltr
Filling Opening	Standard	6 Inch (DN 150)	6 Inch (DN 150)
	Optional	9 Inch (DN 225)	9 Inch (DN 225)
Gasket for Filling Opening	Standard	EPDM	EPDM
	Optional	Viton	Viton
Discharge Valve	Standard	2 Inch Butterfly Valve (DN 50)	2 Inch Butterfly Valve (DN 50)
	Optional	2 Inch Ball Valve (DN 50)	2 Inch Ball Valve (DN 50)
		3 Inch Butterfly Valve (DN 80)	3 Inch Butterfly Valve (DN 80)
Identification Plate(mm)	Standard	510 X 400	510 X 400
Pallet Type	Standard	Composite Pallet	Wooden Pallet (Heat Treated - ISPM 15)
Additional Features	Press fitted security flap at discharge port & Corner Protector to protect IC at bottom. Option of Camlock Adaptor is available.		

*Gasket compatibility/suitability to be ascertained by Buyer/filler

FUTURISTIC PACKAGING SOLUTIONS

With the popularity of Intermediate Bulk Containers (IBC) spreading far and wide, IBCs are being increasingly used in the newer markets such as Middle East, Asia, Far East and Africa apart from established markets of Europe, America and Australia.

BSA IBCs are designed with exclusive features for efficient performance that guarantees highest safety and prevents leakage of the product even in tough terrains and rough handling.
