COMPANY PROFILE

We feel immense pleasure in introducing ourselves as one of the rapidly growing organization in Providing Solutions against Corrosion using wide range of FRP (Fiberglass Reinforced Plastics) products serving across various industries.

Our chairman, Mr. Ashok Jain has 37 years of focused experience in the field of FRP/Composites leads us to a very competent position in the country. We have 2.5 lacs sqft. total area spreading across 4 units, With a team of over 300+ employees.

We design and engineer FRP/Composite products to meet various structural, process and environmental requirements for a wide range of industrial applications in corrosive, humid to saline environment.

We have clients across various sectors with our products being sold in over 20 states of India as well as Africa, Europe & Asia Pacific. We position ourselves as a preferred supplier of all FRP products.

Following is a brief detail of the products we manufacture:

- ✓ **FRP Storage Tanks** for HCL Acid, Diluted Sulphuric Acid, DM Water, Sodium Hypo, Lime Slurry, Acid Oil and many other corrosive chemicals
- ✓ **FRP Chemical Process Equipments** tailored to suit requirements of agitation, reaction etc of various corrosive chemicals
- ✓ **Scrubbing Equipments** like Hoods, Ducts, Blowers, Scrubbers, and also complete **Fume Scrubbing Systems** for Pharma, Fertilizer, and Chemical industry also with end to end design, supply and erection on turnkey basis.
- ✓ **FRP Chimneys** Effective solution for corrosive fumes in areas where temperature conditions are up to 180 - 200 degree centigrade. Composites can be designed for even higher temperatures in flue gases
- ✓ **Acid Oil / Soap Stock Splitting Plant** for splitting Soap-stock for oil recovery in edible oil industries with complete design, supply, erection & commissioning
- ✓ **FRP Gratings** for high strength and chemical resistance. It's extremely good alternative flooring material when compared with the conventional materials like MS / GI, Iron and Concrete etc
- ✓ **FRP Chequered plate & Decking Panels** as replacement of highly corrosive MS Chequered plates.
- ✓ **FRP Cable Trays** (Ladder & Perforated Type) for routing power cables, replacement of GI/ Aluminum trays
- ✓ **FRP Pultruded Sections** ranging from I Beams, channels, tubes (square, rectangular, round, oval), plates, etc
- ✓ **FRP Handrails & FRP Fencings** No painting or maintenance requirements, does not corrode or rust. Ideal for usage in industry, footpath railings, BRTS Corridors
- ✓ **FRP Roofing Sheets** in plain / corrugated & profile patterns (like Tata, Essar, National steel, etc)
- ✓ **FRP Manhole Covers & Drain covers** ideal replacement of metal or concrete covers with high durability, excellent abrasion resistance
- ✓ **FRP Planters & Dustbins** Light weight, easy to handle, UV protected, does not turn brittle in sunlight, excellent mechanical strength can ensure life of over 20 years. Can sustain impact loads & rough handling during waste collection
- ✓ **FRP Lining/ Coating** inside MS tanks or RCC pits, ETP areas for improving life in corrosive conditions

FRP GRATINGS

Focused to the needs of numerous process industries, FGPL is a one stop solution for all kinds of FRP products. With an experience of over 30 years & fostered by a team of skilled professionals, we are able to offer customised SOLUTIONS AGAINST CORROSION.

At FGPL & sister concern Plast-O-Fibre Industries, we believe in bringing forth highest quality standards to our clients spread across INDIA as well as EUROPE, AFRICA & ASIA PACIFIC. FGPL FRP products are manufactured with the aid of best quality raw material and innovative technology in compliance with global quality standards

FGPL Gratings is an integral construction with fibreglass rovings reinforced with unsaturated polyester resin. Generally termed as FGPL FRP Moulded Gratings, this finds applications in various corrosive environments & across various industries. FGPL & our sister concern has an expertise in manufacturing of these gratings for almost 15 years.

Key Features

Life 15 to 20 years	Weather durability	Rust & Corrosion Proof
No hot work for installation	High load carrying Capacity	Water Proof & UV Resistant
Resistant to acidic & alkaline fumes	Light weight, ease of installation	High Mechanical, Tensile & Impact Strength

Applications

Platforms	Walkways	Drain & Trench Covers
Stair treads	Vessel Covers	Staircase Landings

Load Bearing Capacity
250 kgs to 25,000 kgs

Colours
Grey, Black, Green, yellow
or any other as required

Type
Open & chequered plate type

Thickness
10mm, 15mm, 20mm,
25mm, 30mm, 38mm

Surface Finish
Smooth, Chequered, Gritted

Others
UV Grade & / or Fire
Retardant as required
