

ANUPAM RASAYAN INDIA LTD.

**CHEMISTRY.
RESEARCH.
INNOVATION.**

DRIVEN BY SCIENCE FOR A BETTER TOMORROW

From the days of inception to the year of listing on the stock exchanges, it has been a journey of learning, growing, adapting and evolving. Anupam Rasayan India Limited is one of the leading companies engaged in the custom synthesis and manufacturing of speciality chemicals in India. Our customers are at the core of our business ethos; hence we cater to a diverse portfolio of products and solutions that are innovation driven serving the exact and ever-changing needs of a plethora of end-user industries in India and globally.

Our six pioneering production facilities puts us at a distinct advantage. Since the foundation, we are continuously striving to meet the demands of our esteemed customers by upgrading our manufacturing facilities with advance and best in industry technologies which effectively manufacture the best quality products, fulfilling customers' requirements. With an annual production capacity of 40,000 tons, we are committed to excellence in quality and sustainability through six manufacturing units, out of which four are located in Sachin and two massive sites in Jhagadia.

Our core vision is to grow exponentially in a multi-faceted manner in the group chemistries that we are proficient in and, most importantly, through our customer support. What sets us apart is our expertise in executing complex chemistries and to go even beyond in the quest to expand the global foot-print and cross new horizons by creating quality-driven products.

QUALITY OVER ANYTHING AND EVERYTHING

We follow a robust process to deliver finest quality products, time to time, with prompt responses to queries and inquiries, are the hallmark of the quality policy. Our quality management system provides a rigorous framework which measures its product performance, further, the system itself is closely monitored and regularly updated to ensure smooth operations, year after year.

We continue to focus on adopting energy-efficient technologies and practices by increasing the use of alternative fuels, energy and raw materials. Our constant endeavour is to boost proficiency and productivity by incorporating sustainable business practices and implementing cost-reduction strategies in operational management. Few initiatives on energy efficient technologies are the adoption of a solar power plant, use of natural gas-based steam and hot oil boilers, which will help optimize production costs and improve product quality. Further, we are focused in integration of the value chain and manufacturing facilities, by carrying out majority processes in-house to maximize efficiencies.

ENVIRONMENTALLY RESPONSIBLE

Committed towards the planet responsibilities – we envision a future world that is both sustainable and equitable. Ensuring a safe and clean work environment for our employees, we continuously ensure to engage in reasonable practices that their health, safety and welfare remain our foremost priority.

To mitigate occupational risks and hazards we have created certain checks and balances including a periodic risk assessment, running reaction and differential calorimetry tests, conducting hazards and operability studies, mitigate hazards with engineering controls and secure work practices – ensuring continuous improvement in processes, health and management. Few CSR initiatives undertaken by us include: (i) Sickle Cell Disease comprehensive care program (ii) To reduce NMR, IMR and child malnutrition in 6 tribal blocks of Gujarat (iii) Organizing free eye check-up and surgeries for employees (iv) Upgradation of Physiotherapy Department of Dinbandhu Charitable Hospital Trust (v) Environment conservation and protection of flora and fauna (vi) Skill Angel Cognitive Learning Program for children of rural area (vii) Conducted free Covid-19 Vaccination camps for employees.

DIVERSIFIED BUSINESS SEGMENTS

Incorporated in 1984, Anupam Rasayan India Limited is a custom manufacturing company undertaking multi-step synthesis and complex chemical reactions. We operate in two business verticals, pertaining to varied market segments such as life science related specialty chemicals comprising of products related to Crop Protection, Pharmaceuticals, Anti-Bacterial Biocides and other specialty chemicals, used in diverse end-user segments like Polymer Additives, Specialty Pigments and Dyes.

Green chemistry have always been to the top of our agenda. We have developed new eco-friendly, safer and novel routes for many products. Driven by a rich legacy of innovation and excellence in quality and service delivery, we have emerged to be amongst the most preferred suppliers nationally and globally.

CROP PROTECTION

Anupam Rasayan India Limited undertakes complex chemistries for custom manufacturing of Agro Advance Intermediates and high quality Agrochemical Actives (insecticides, fungicides and herbicides) for our global customers.

PHARMACEUTICALS

We focus on developing and custom manufacturing of Advance Intermediates and 'key starting materials' for APIs for our global and Indian pharmaceutical customers.

ANTI-BACTERIAL BIOCIDES

We customer manufacture antibacterial and ultraviolet protection intermediates and ingredients used in personal care applications introduced by our global customers.

POLYMERS

We manufacture Advance Intermediates which are used in manufacturing Polymers, Polyamides, High performance Resins which has some of the complex or advance applications including Aviation, Aeronautics and Defence. We also manufacture other specialty chemicals used in diverse end-user segments like Polymer Additives, Specialty Pigments and Dyes.
