- Original insurance policy covering 110% of invoice value
- Original certificate of fumigation or Plywood packing material
- Certificate of analysis indicating batch n° per quantity
- For dangerous goods only: original declaration of dangerous goods

- A container containing goods or materials that either are or have been fumigated within the container with a fumigant gas that is poisonous or asphyxiant, must be identified as a 'Fumigated cargo transport unit' with UN 3359 under the IMDG code.

If goods and/or pallets are fumigated outside the container and sufficient time is allowed for residues of fumigation gas to dissipate, then marking of the container is not required.

Please provide for each shipment a written statement of the procedure used, signed by an authorized representative of your company, and mark the container accordingly. Costs, incurred by shipments not declared as fumigated but at arrival found to contain fumigation gas residues in excess of permissible levels, will have to be reimbursed by your company.

Guidance is available on simple request.
